Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim(s) 81-128, drawn to a device for storing dressings.
 - Group II, claim(s) 129-139, drawn to a method for storing dressings.
 - Group III, claim(s) 140-146, drawn to a method for storing dressings.
 - Group IV, claim(s) 147-157, drawn to a method for storing a dressing.
2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to a device for storing dressings including a plurality of dressing storage positions and means supporting the storage positions vertically with respect to one another, which is not required in Groups II, III, or IV. Group II is directed to a method for storing dressings including steps of removing, storing, and positioning dressings that is not specifically required by Groups I, III, or IV. Group III is directed to a method for storing a dressing including steps of using a sensor to check the dressing that is not required by

Groups I, II, or IV. Group IV is directed to a method for storing a dressing including the steps of providing a lifting device and temporarily storing the dressing that is not required by Groups I, II, or III. Therefore, there is no corresponding technical feature between Groups I, II, III, and IV and they do not relate to a single general inventive concept.

3. A telephone call was **not** made to Doug Hanscom since applicant's attorney historically does not elect over the telephone. See, in particular, MPEP 812.01.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
